

# 2020 Strategy and Beyond

Final Version 1 May 2020

## Outcome

By 2023 it is known in the local area that Mordialloc Neighbourhood House provides an inclusive community hub that promotes well-being and community connections, with access to programs and services is driven by the demand and responsive to the needs of the local area.

## Priorities

This is a three year rolling plan, starting in 2020. We have developed the detail for 2020 and sketched in some ideas for 2021 and 2022. As we develop greater expertise in the development and implementation of three year plans, we will improve the level of detail provided in the outer years.

Our current five priorities are:

<i>1. Surviving the Pandemic by continuing to serve our local area as best as circumstances allow</i>	
<i>2. Launching marketing and communication to better connect with our local area</i>	<i>3. Strengthening stakeholder and community engagement</i>
<i>4. Continuing current programs and developing new ones in response to local area needs</i>	<i>5. Polishing operations and governance</i>
